

## *Quench 523: Sparkling Water Cooler*

- ◆ Sparkling, cold, and hot water
- ◆ Push-button dispensing
- ◆ Bottleless design
- ◆ Icebank cooling technology
- ◆ Typically serves up to 60 people

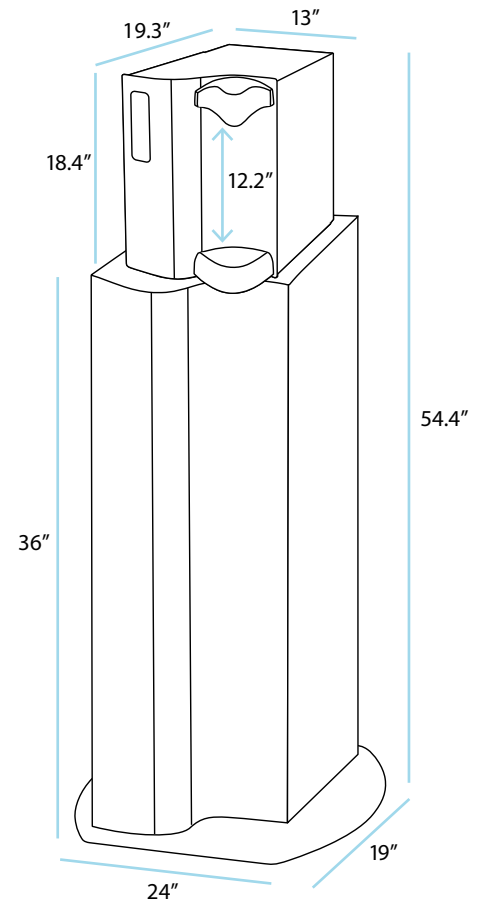

# Beautiful on the outside, the best technology inside

**Quench 523.** The Quench 523 is a graceful solution to your freestanding sparkling water cooler needs. The all stainless steel and aluminum design is ideal for demanding hospitality settings, but can fit nicely in an office, showroom, or any situation where you need a virtually endless supply of sparkling, filtered cold, or hot water. The Quench 523 comes standard with push-button dispensing and a large fill area to accommodate sports bottles and is ideal for showrooms, offices, pantries or reception areas.

-  All stainless steel and aluminum
-  Self-diagnostic alarm for no water or no CO2
-  Inlet valve for safety shut off (to prevent leaks)
-  Stainless steel base stand
-  Sparkling, cold, and hot water
-  Ice Bank Cooling Technology
-  Dispensing area and drip-tray in anodized aluminum
